Muhammad Shaheer

Full-Stack Software Engineer · Cloud & DevOps
Lahore, Pakistan | +92 328 5440010 | shaheer.anser@gmail.com | linkedin.com/in/shaheeranser | github.com/shaheeranser

Experience

Software Engineer & Technical Consultant (Founding Engineer) Jan 2026 – Present
Inspirit360 *Finland (Remote)*

- Founding engineer and sole technical owner of a production invoicing portal serving European SME back-office operations.
- Built the platform end to end on **Next.js**, **FastAPI**, and **PostgreSQL**, taking it from an empty repository to a live production service.
- Own the data models, API surface, and deployment workflow; advise leadership on technical service expansion.

Machine Learning Intern Aug 2025
Alpha Network *Remote*

- Built an AI customer-support chatbot, fine-tuning **DistilBERT** for intent classification and **FlanT5** for response generation behind a **Flask** API; synthetically expanded the training corpus.

Projects

Exam Proctoring Platform | *React, TypeScript, Express, MongoDB, Docker, AWS* | Final Year Project

- LTI 1.3 tool that launches inside Moodle and serves role-aware exam flows for students and teachers.
- Runs proctoring entirely in the browser with **TensorFlow.js (COCO-SSD), MediaPipe, and face-api**; flags soft and hard incidents and snapshots violations to self-hosted **MinIO**.
- Packaged as a **Docker Compose** stack with a one-shot **EC2** deploy script for Let's Encrypt certificates.

CI/CD & Kubernetes Pipeline | *GitHub Actions, Docker, Kubernetes, Azure*

- CI runs each microservice's tests against **Postgres** service containers, then pushes images to **Azure Container Registry**.
- CD deploys to **AKS**; per-PR staging namespaces with smoke tests and guaranteed teardown.

Open Source | *TypeScript, Node.js, Testing*

- Author of **reamify**: converts PDF tables into XLSX workbooks using streaming writers to bound memory, behind a typed public API with tests and docs.
- Merged rotation-aware table-cell hit-testing into **genspark-ai/genoffice** (7.6k stars).

Lookvisa | *React, Node.js, Express, MongoDB* | Commercial Project Nov 2024 – Feb 2025

- Backend developer on a commercial social platform connecting investors with investment seekers; designed the core API architecture and data models.

Education

Bachelor of Science, Computer Systems 2024 – 2026
Riphah International University *Pakistan* · ***CGPA 3.71/4.0***

- Exchange semester – ***Multimedia University (MMU)***, Cyberjaya, Malaysia (Apr 2026 – Jul 2026)

Associate Degree, Computer Science 2022 – 2024
Riphah International University *Pakistan* · ***CGPA 3.98/4.0***

Certifications

OCI AI Infrastructure Associate – Oracle University · Google AI Essentials – Coursera (Aug 2025)

Artificial Intelligence for Brain Controlled Applications – NRG (Jul 2025)

Technical Skills

Languages: TypeScript, JavaScript, Python, C++, SQL
Frontend: React, Next.js, Vite
Backend: FastAPI, Express.js, Node.js
Databases: PostgreSQL, MongoDB, MySQL
Cloud & DevOps: AWS, Azure, Docker, Kubernetes, GitHub Actions, Caddy, MinIO, Git
Data & ML: TensorFlow, TensorFlow.js, NumPy, Pandas, Scikit-learn
